## EMERGENCY IDP SETTLEMENT REHABILITATION PROGRAMME

### Week 21 Progress Report

31 May - 5 June 2008

#### Summary

The *Emergency IDP Settlement Rehabilitation Programme* proceeded well in all 16 targeted district settlements in the City of Mogadishu.

The security situation in some parts of the city of Mogadishu remained volatile; and unpredictable, and the situation continues to deteriorate, especially in the districts of Hawlwadag, Hodan, Heliwaa and Yaqshid, where the insurgency against the TFG and Ethiopian troops continues to grow.

The beautified settlements have had continuous positive feedback by many residents and leaders of the city; and most agree that this kind of intervention has in fact positively revived the hopes of many Somalis who live in Mogadishu in abject poverty.

On the other hand, DCs wholeheartedly thanked SAACID and the donors for the funding and the implementation of this programme and they all noted that the *Emergency IDP Settlement Rehabilitation Programme* targeted and assisted vulnerable people in their own constituencies, and therefore the programme enjoyed the acceptance and complete support of the community at large.

All the programme beneficiaries have received their wages at SAACID compound this week on time and they were very happy.

There were 70 accidents and no incidents reported across all worksites this week.

Some 33,048 tonnes of garbage have not been removed from IDP settlements through 7 weeks of the second phase of the *Emergency IDP Settlement Rehabilitation Programme*.

### **Abdul-aziz District**

There were 84 labourers were working in the district this week. The district workers were operating at a new settlement called Turdho. The settlement was full of garbage and other harmful materials. The workers removed huge amounts of garbage and other harmful materials from the settlement and sent it to the dumpsite.

The 1 truck that was contracted for the district completed its output of 36 loads as agreed.

There were 4 accidents were reported in the district this week.

Attendance of the workers was very good.

There were no incidents reported in this district this week.

### **Deynile District**

There were 18 workers working in the district this week. The workers were operating at a new settlement where there were vast amounts of garbage, thorny bushes and other harmful discarded materials. The workers sent 36 loads of filthy, thorny and heavy rusted car bodies to the dumpsite to clear and beautify the settlement.

The 1 truck that was contracted for the district completed its output of 36 loads as agreed.

There were 5 workers injured in the district this week.

Attendance of the workers was excellent.

There were no incidents reported in this district this week.

### **Dharkeynley District**

There were 27 workers working in the district this week. All the district workers were operating at a new settlement called Alla-aamin settlement. The targeted settlement was full of garbage and other harmful materials.

The 1 truck that was contracted for the district completed its output of 36 loads as agreed.

There were 7 workers injured in the district this week.

Attendance of the workers was very good.

There were no incidents reported in this district this week.

### **Hawl-wadag and Wardhigley Districts**

There were 75 workers from Hawl-wadag and Wardhigley were working in the district this week. Both sets of district workers were operating at a new settlement where there were vast amounts of garbage that has accumulated over the years. The workers removed 72 loads of garbage from the worksite.

During the course of the week, seven workers were injured with sharp metal in the garbage.

There were no incidents reported in this district this week.

Attendance of the workers was very good this week.

### **Hamar-weyne and Bondhere Districts**

There were 81 workers were working in the district this week. For the second week in a row, both sets of district workers from Hamar-weyne and Bondhere were operating in the same settlement. The settlement is still full of garbage and other harmful materials that were discarded.

The 2 trucks that were contracted for the district completed its output of 72 loads as agreed.

There were 7 accidents reported in the district this week.

There were no incidents reported in this district this week.

Attendance of the workers was very good.

### **Heliwaa District**

There were 21 workers working in the district this week. The district workers were again, for a second week in a row, operating in the same Tawakal settlement. The settlement is still full of garbage, harmful materials and thorny bushes. The workers were able to send another 36 loads of garbage to dumpsite this week.

There were 4 accidents reported in the district this week.

There were no incidents reported in this district this week.

Attendance of the workers was very good.

### **Hodan District**

There were 135 workers working in the district this week. The district workers went to 2 new settlements this week. The targeted settlements are hosting a large number of IDPs; and are full of garbage and other harmful materials.

The 2 trucks that were contracted for the district completed its output of 72 loads as agreed.

There were 6 workers reported injured in the district this week.

The security around the settlements is very dangerous, as the area is during the daytime controlled by TFG forces, and at night by the anti-government forces.

Attendance of the workers was very good.

### **Karaan and Shibis Districts**

There were 102 workers working in the district this week. The district workers from Karaan and Shibis were operating in 2 new settlements. The workers from both districts successfully removed 72 loads of garbage and sent it to the dumpsite this week.

There were 12 workers injured in the district this week.

In the settlements, the following UXOs were recovered in the garbage and isolated:

1. Projectile APHE-T..... 1 round
2. projectile AA..... 1 round
3. Fuse..... 1 round
4. Hand grenade Anti-tank. .... 1 round

The 2 trucks that were contracted for the district completed their output of 72 loads as agreed.

There were no incidents reported in this district this week.

Attendance of the workers was very good.

### **Shingani District**

There were 42 workers working in the district this week. The district workers were operating at Bulsho 2 settlement. This new-targeted settlement was full of garbage that has accumulated over the years. The workers removed, and send to the dumpsite, 36 loads of garbage.

There were 4 accidents were reported in the district; and none was serious.

No incidents were recorded in this district this week.

Attendance of the workers was very good.

### **Waberi and Hamar-jajab Districts**

There were 72 workers working in the district this week. The labourers were working at Beyl settlement, where there was a vast amount of garbage and other harmful materials. The targeted settlement is very populous, and occupies a large space of shanty huts built inside a large garage.

The 1 truck that was contracted for the district completed its output of 36 loads as agreed.

There were 5 workers reported as injured in this district this week.

There were no incidents reported in this district this week.

Attendance of the workers was very good.

### **Wadajir District**

There were 54 workers working in this district this week. The labourers were again working at Aqoonta Settlement for a second week. The settlement is still full of garbage, animal remains and other harmful materials. Workers removed 36 loads of garbage during the course of the week.

There were 3 workers injured at the district worksite this week.

There were no incidents recorded in this district this week.

Attendance of the workers was very good.

### **Yaqshid District**

There were 69 workers working in the district this week. The district workers were operating at a new settlement called Jirdhiska. The targeted settlement was full of garbage, thorny cactus and other discarded harmful materials.

The 1 truck that was contracted for the district completed its output of 36 loads as agreed.

There were 6 district workers that were slightly injured in the district this week.

There were no incidents recorded in this district this week.

Attendance of the workers was very good.
